Qualifications

Nanyang Technological University: MSc in Applied Mathematics (2017–2019)

National University of Singapore: BSc in Mathematics (2013–2017)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

For five years, I've tutored students in A-Level and IGCSE Maths, working with students to master core concepts and excel in their exams. My focus has been on helping students strengthen their understanding of calculus, algebra, and applied maths, particularly in preparation for A-Level and AP assessments.

In addition to A-Level, I've guided AP students through advanced calculus and statistics, ensuring they grasp key topics. I've seen many students gain the confidence needed to achieve top grades, with some advancing to prestigious universities to pursue STEM degrees.
