Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

With 11 years of teaching and tutoring experience, I have worked extensively with students from secondary to postgraduate levels. My focus has been on key A-Level and IB Geography topics, including urbanisation, environmental sustainability, and natural disasters, ensuring that students develop a deep understanding of critical concepts.

In addition to private tutoring, I served as a curriculum consultant for an international school in the Netherlands, developing materials for IB and GCSE Geography. I have supported students in tackling coursework, NEAs, and research essays, with many achieving top results in their exams and progressing to prestigious universities.

My passion for teaching lies in connecting theoretical knowledge with real-world applications. I frequently draw from global case studies, enriching lessons with insights from contemporary issues in environmental and urban geography, ensuring that students are well-prepared for academic and career pursuits.
