🎓 Experienced Tutor | University of Geneva | PhD in Biophysics

With a PhD in Biophysics from the University of Geneva and an MSc in Molecular Biology from ETH Zurich, I bring 20 years of expertise to A-Level Biology, Chemistry, and Physics. I help students succeed in IGCSE, GCSE, and AP curricula.

Teaches: A-Level Biology A-Level Chemistry A-Level Physics GCSE Science

AP Biology

Curriculum: A-Level GCSE AP

## Qualifications

**University of Geneva:** PhD in Biophysics (2001–2005)

**ETH Zurich:** MSc in Molecular Biology (1998–2000)

Vetted Tutor

## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

## Tutoring Experience

Throughout my 20-year career, I've worked with students from a range of educational backgrounds, helping them navigate A-Level, IGCSE, and GCSE sciences. I focus on making complex biological and chemical concepts accessible, providing my students with a strong foundation in each subject.

In addition to A-Level support, I've also guided AP students in mastering the essentials of biology and chemistry. I've seen students achieve top scores, with many continuing their studies at top universities worldwide, driven by the analytical skills they've developed in our sessions.

Beyond exams, I take pride in fostering a deeper appreciation for science, which benefits my students academically and in life. Teaching for two decades has allowed me to witness and contribute to their growth, and I remain passionate about inspiring future scientists and thinkers.
