🎓 Experienced Tutor | KU Leuven | PhD in Chemical Sciences

With a PhD in Chemical Sciences from KU Leuven and an MSc in Advanced Chemistry from Ghent University, I bring 19 years of expertise in A-Level Chemistry, guiding students across IB, IGCSE, and GCSE curricula to top results and prestigious university placements.

Teaches: A-Level Chemistry IB Chemistry IGCSE Chemistry GCSE Chemistry

Curriculum: A-Level IB IGCSE GCSE

Qualifications

KU Leuven: PhD in Chemical Sciences (2004–2008)

Ghent University: MSc in Advanced Chemistry (2002–2004)

University of Antwerp: BSc in Chemistry (1998–2002)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

Over the past 19 years, I have worked extensively with students at both school and university levels. My expertise includes teaching A-Level Chemistry for exam boards such as AQA, OCR, and Edexcel, as well as guiding IB students through SL and HL Chemistry. I have also supported IGCSE and GCSE students, focusing on developing strong foundations in organic, inorganic, and physical chemistry.

During my time at KU Leuven, I mentored undergraduate and postgraduate students, supervising research projects in areas such as chemical synthesis and analytical techniques. Since transitioning to full-time tutoring, I've dedicated myself to helping students master challenging concepts, enhance their problem-solving skills, and excel in competitive exams.

In addition to one-on-one sessions, I have collaborated with international schools to deliver tailored chemistry lessons and run Oxbridge preparatory workshops for aspiring university applicants. My students have consistently achieved exceptional grades and progressed to pursue STEM degrees at top universities worldwide.
