## Qualifications

**University of Tokyo:** MSc in Biological Sciences (2016–2018)

**Kyoto University:** BSc in Molecular Biology (2012–2016)

## Vetted Tutor

## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

## Tutoring Experience

I began teaching A-Level and GCSE Biology in 2018, working with students from Japan and internationally. My focus has been on preparing learners for Cambridge and AQA exam board specifications, guiding them through challenging topics such as genetics and molecular processes.

I've also gained experience working with IB students, assisting them with Extended Essays and Internal Assessments in Biology. My tutoring has consistently helped students excel in exams and deepen their understanding of advanced biological concepts.
