🎓 Experienced A-Level Tutor | Lund University | PhD in Astrophysics

With a PhD in Astrophysics from Lund University and an MSc in Theoretical Physics from Uppsala University, I bring 18 years of expertise in A-Level Physics, IB Physics, and AP Physics, supporting students globally in mastering advanced physics.

Teaches:

A-Level Physics

IB Physics

IGCSE Physics

AP Physics

Curriculum:

A-Level

IB

IGCSE

AP

Qualifications

Lund University: PhD in Astrophysics (2002–2006)

Uppsala University: MSc in Theoretical Physics (2000–2002)

KTH Royal Institute of Technology: BSc in Physics (1997–2000)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

My journey in physics education began 18 years ago when I transitioned from academic research to teaching. I have served as a lecturer at prestigious institutions, focusing on mechanics, quantum theory, and astrophysics for pre-university and university students. This experience shaped my ability to simplify complex topics for learners from diverse educational systems.

In addition to classroom teaching, I've authored several physics textbooks tailored for A-Level and IB students, combining theoretical explanations with practical problem-solving approaches. Working with international exam boards, I've developed a deep understanding of curricula and assessment standards, ensuring students excel in their exams.

Since moving to private tutoring, I've worked with students preparing for university-level courses, particularly those aiming for engineering and physics programmes. By bridging the gap between secondary and higher education, I've helped students build the confidence needed to succeed in competitive academic environments.
